EDUCATION

Christ College   Puliyanmala, Kattappana
Bachelor of Computer Applications   *Sept. 2021 – March 2024*

PROJECTS

Online Tutoring Hub   PHP
Mini Project
  * Developed an extensive online tutoring platform designed to bridge the gap between students and expert tutors across a wide range of subjects.
  * Implemented in PHP with a focus on user experience and seamless interaction.

CareerConnect   Django
Main Project
  * Developed an innovative platform designed to facilitate the recruitment process by connecting college students with potential recruiters.
  * Built using Python and Django, focusing on providing a robust and scalable solution

Automatic TimeTable Generator   Django
Project
  * Developed an automated timetable generation application for schools to efficiently create and manage class schedules.
  * Implemented using Python and Django, focusing on user-friendly design and algorithmic efficiency.

Thilakkam Shop   Django
Ecommerce Web App
  * Developed a full-featured e-commerce web application to facilitate online buying and selling of products.
  * Built using Python and Django, with an emphasis on scalability, security, and user experience.

ACHIEVEMENTS

- TryHackMe - level 6

CERTIFICATIONS

Practical Ethical Hacking - The Complete Course (TCM Security)

Linux Privilege Escalation for Beginners (TCM Security)

Practical Web Application Security and Testing (TCM Security)

Burp Suite: Web Application Penetration Testing (ECcouncil)

Multi-Cloud Red Team Analyst [MCRTA]

Certified Cyber Security Analyst - Community Edition

TECHNICAL SKILLS

  * Web Application Security
  * Burp Suite
  * Linux Privilege Escalation
  * Penetration Testing
  * Bash Scripting
  * Linux
